The Party Leave Here Before Seven o'clock.

THE DAYS INCIDENTS.

Notes and Gossip About the Party's Proceedings Yesterday.

Since the beginning of the world, probably, the people have been looking to the skies at sunrise for the promise of the day.

The eyes thus upturned from Richmond yesterday found the signs rather discouraging, and there was a struggle between the sunshine and clouds until about 10 o'clock, when the heavens were wholly obscured, and by 11 rain was falling.

At the Richmond and the Manchester people and the common country people, who were within our gates ignored the fact altogether. They all had made their arrangements to go to the Fair, and nothing less than a snow-storm, or a heavy one at that, would have altered their resolve.

Happily, the rain was at no time very heavy and of short duration. It was just what was needed to give the city some of the new-fangled, and was followed by "partly cloudy" weather and that by "unclouded sky," which filled our stock of clothing with the promise of a bright future.

LEAVING WASHINGTON.

President Cleveland and Secretaries Bayard, Endicott, and Vilas, and Commissioner of Agriculture, Mr. H. C. Smith, left Washington yesterday morning at 8 o'clock on a special train.

The train was composed of a Pullman car, a Pullman car, and a Pullman car. The train was composed of a Pullman car, a Pullman car, and a Pullman car.
